STOP SAYING

~~“I want to be honest with you. Your work has been missing the mark.”~~

Steady

It sounds serious, but says nothing.

They hear concern, not what to change on Monday.

SAY THIS

“The risks section was missing. Next time, include it on the last slide.”

Be kind and specific.

Say what was missing and what you need next time.

Knowing what to say is the easy part.

Practice saying it with Steady before the real talk.
